NOTARY SIGNING AGENT

A Notary Signing Agent is a Notary Public who is hired as an independent contractor to ensure that real estate loan documents are properly executed by the borrower, notarized, and returned for processing. A Notary Signing Agent is not an employee of the lender or title company, but acts as a neutral third party to confirm the identity of the signer and assure that all documents are signed correctly. Since state law and lenders often require certain forms to be notarized, a valid Notary commission is essential for persons performing loan document signings. Typically, the Notary Signing Agent contracts with the lender or with a title or escrow company in the transaction to facilitate the signing.
